Eric Thaut is the Program Manager for the U.S. Army Corps of Engineers Flood Risk Management Planning Center of Expertise (FRM-PCX), located in the South Pacific Division office in San Francisco. The FRM-PCX was established to develop, maintain and apply the best and most appropriate nationally available expertise, science and engineering technology for conducting planning studies and the development of flood risk management projects. The Center operates as a virtual team, supported by the Great Lakes and Ohio River Division, Northwestern Division, Mississippi Valley Division, the Institute for Water Resources, the Hydrologic Engineering Center, the Engineer Research and Development Center, the HQUSACE Flood Damage Reduction Business Line, the Corps' National Non-Structural and Flood Proofing Committee and other supplemental virtual team members. Eric received a BS degree in Civil Engineering from the University of Washington in 1994 and has worked as a water resources planner on flood damage reduction, ecosystem restoration, storm damage reduction, navigation, and multi-purpose projects.
